

Amendments to the Drawings:

Please cancel all drawings on file.

REMARKS

This is responsive to the Notice Regarding Drawings and Draftsperson's Form PTO-948 mailed by the Office on June 13, 2006.

In related patents, the Office had previously requested the filing of a similar Amendment in order to facilitate publication.

The drawings for this patent are the same as those in U.S. Pat. No. 6,130,602, which has been incorporated by reference (see Preliminary Amendment filed April 12, 2004). Therefore, this application has been amended in the same manner in which related application, Serial No. 09/161,512, now U.S. Pat. No. 6,466,634, was amended by Examiner's Amendment. This Amendment also obviates the issues listed in the Notice Regarding Drawings and Draftsperson's Form PTO-948.

Prompt publication of the patent is requested.

Respectfully submitted,

Dated: July 14, 2006
